HumanCyc: *Homo sapiens* Cellular Overview

An online version of this diagram is available through BioCyc.org and may be used for analysis of omics datasets.
Lines in the diagram correspond to reactions; nodes correspond to metabolites.
Reactions not assigned to any pathway are in the light gray portion of the cytosolic compartment of cohorts.
Reactions not assigned to any pathway are in the lip right of the cytoplasm.
In the membrane are transporters (with arrows) and other membrane proteins.
connections between pathways are omitted for legibility.
